"Letters from the Russian camp near Kuld is state that hostilities are impracticable before the spring." The inference is that a Russian army has been vernment fully expect to fight. The pacific assurances given, from time to time, in various gotiations broken off with the Marquis Tseng and transferred to Peking may be on both sides a mere ruse to gain time while they are completing preparations for the fray. For our would make no concession, and was far more likely to increase her demands. Recent events have tended to strongly confirm this impression. Only the other day Reuter telegraphed that "England and Russia were disposed to proof that a pro-Muscovite policy has been adopted by the Gladstone Administration. If

upon her resources, while the certainty that she will be called upon to bear the cost of the Russian expedition to Kuldja and the despatch of the Russian fleet to Pacific waters cannot be altogether satisfactory. Can the Dragon afford to defy the Muscovite Bear? That is the question the Chinese Ministers have to consider, and the sooner they come to a decision the better for the Empire.

In our issue of the $22\,\mathrm{nd}$ ultimo we commented on the prograstination of the Siamese Government in connecting Bangkok with the outside world by telegraph, although arrangements were long since made for the work. We see that His Majesty the King of SIAM, in a speech | Bosnborus. in roply to the address presented by the foreign representatives at Bangkok, referred as follows to the telegraph project :-- "With respect to telegraphs, we are glad that the Government of India have agreed to join their line to ours at the Tavoy frontier, as we requested some time ago. We intend to have the work commenced in the next dry senson." This assurance is satisfactory, and we trust that it will be acted upon energetically. A Government notification inviting tenders for the supply of 3,200 telegraph posts for the proposed line to Tavoy, and for 1,050 additional posts for the line from Tavoy to the Siamese frontier appeared in the Moulmein Advertiser of the 20th August, which is evidence that the Authorities | soven days' imprisonment. of British Burmah intend fulfilling their share The Work is embellished with the following of the agreement. As may be expected at this time of year we have not been without changeable and rough weather. On the 23rd ult. a strong N.E. gale set in which lasted two days, and on Monday we were visited by another gale from the same quarter, and so rough was it that shipping work had to be entirely suspended from the afternoon of that day until Wednesday morning. This resulted in the loss of a clear day to steamers in port, and considerable damage was done to native blow, but the barometer did not fall very much I have heard it stated more than once that the Chinese were so far advanced as to be able to dispense with the services of Europeans in their arsonals, that as the agreements of those still in the service of the Chinese Government expired retire, and that no more fresh engagements would be made. This, however, cannot be correet, as the steamer Douglas, which arrived here on the 1st inst. from your port, brought two gentlemen who have been recently engaged in England for the Foodhow Arsenal-Mr. Taylor, for navigation, who will fill the post held by the late Mr. J. Carroll; and Mr. Legh, for engineer-

ing, who will take the place of Mr. Morton. Mr. R. W. Mansfield, H.B.M. Vice-Consul, leaves here for Shanghai in the steamer Europ on a few weeks' leave of absence, and Mr. Allan away. I hear that the Harbour-Master at this port, Captain Rennell, is to be transferred to Shanghai, and that Mr. E. V. Brenan will be appointed to succeed him at this port.
